

EQUINE CRANIOSACRAL WORKSHOPS

MAUREEN ROGERS
INSTRUCTOR

Coming November 17th 2007!

NEW CLASS!!! One day Canine Assessment Clinic

This one-day clinic is designed to educate dog owners on what is healthy movement in the canine. Clinic participants attending will be shown the various ways to assess their dog for postural and biomechanical imbalances. Clinic also covers what is posture vs. confirmation and identifies postural imbalances, how to address low back and hindend problems and ways to keep your canine healthy and happy.

Location: *Kepala Pet Resort*
Diggers Rest, VICTORIA

Clinic participants with dogs cost \$150.00

(People with dogs are limited to 5 registrants.)

(These dogs will be assessed during the clinic.)

Spectators/Auditors: \$75.00 – pre-registration required

To register, or for more information,
Contact Susie Simmons at 03 9553 1769
or by email at Naturallystylin@dodo.com.au

Registration is available on-line at our website:
www.equinecraniosacral.com

Canine CranioSacral (CCS) work is a holistic healing practice, which uses extremely light finger pressure to optimize body movement. When applied correctly, this gentle and subtle technique can be highly effective in addressing a number of conditions in the dog.

Canine CranioSacral Workshops offers classes, lectures and private consultations, which combine an analytical with the intuitive approaches of CranioSacral methods for dogs. Classes are based on the philosophy that the cranial wave is an intelligent form of communication.

The Canine CranioSacral Workshops class series is designed to equip the student practitioner with the skills necessary to practice canine craniosacral work at a deeper, more intuitive level than that of technique. Listening is a challenge
